Tool Life Cutting Oil

Non-Chlorinated Formula

PRODUCT DESCRIPTION:

JAX Tool Life Cutting Oil produces the finest precision work in all types of machining operations, including:

- Cutting
- Milling
- Reaming
- Drilling
- Tapping
- Finishing
- Boring

PRODUCT BENEFITS:

JAX Tool Life Cutting Oil minimizes tool wear and breakage. This saves time and money by reducing expensive downtime, reducing repair and replacement costs, and reducing the number of rejected parts.

JAX Tool Life Cutting Oil is more than just a coolant or sulfonated cutting oil. Its formulation includes carefully selected, non-chlorinated additives for enhanced performance and has been field-tested to ensure more exact tolerances, longer tool life, reduced tap breakage, and cleaner, more precise threads.

APPLICATION:

JAX Tool Life Cutting Oil is especially effective on:

- Alloy materials
- Stainless steel (300 and 400 series)
- Aluminum and aluminum alloys
- Brass
- Soft copper
- High-carbon steel
- Magnesium
- Beryllium
- Titanium
- Phosphor bronze
- Chrome-moly
- Many plastics
- Plexiglas®

TECHNICAL DATA:

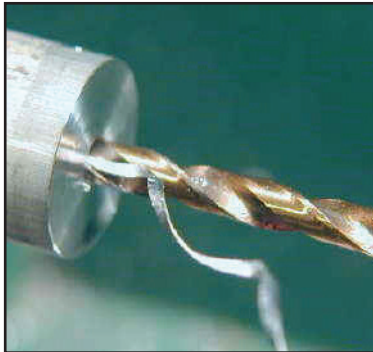

Propellant:	N/A
Flash Point:	406° F (208° C) ASTM D 92, typical
Texture:	Light Oil
Appearance:	Light Straw
Consistency:	Light
Specific Gravity:	0.86 for Concentrate

BULK PACKAGING:

16 fl. oz. net weight bottles with point/drip caps, (12/case) – Part # JAX00217-009
Trigger Spray Bottles (16 fl. oz., 12/case), Gallons (4/case), 5-Gal pails and
55 Gal drums – Part # 00217
