

Green-Clean Cleaner/Degreaser Crystal-Clean Cleaner/Degreaser

PRODUCT DESCRIPTION:

Green-Clean Cleaner/Degreaser is a water-based fast-acting, non-chlorinated, CONCENTRATED cleaner/degreaser that is environmentally friendly and extremely effective. It is biodegradable and does NOT contain any petroleum based products. Crystal-Clean Cleaner/Degreaser is a clear version of the same formulation.

APPLICATION:

- Cleaning surfaces in and around food-processing areas (not intended for direct food contact)
- Surface preparation before coating or painting
- Ultrasonic cleaning machines/ultrasonic cleaners
- Degreasing food-plant, hospitality and beverage equipment
- Cleaning parts after machining
- As a safe biodegradable parts wash

DIRECTIONS FOR USE:

1. Scrape away extreme build-ups
2. Dilute Green-Clean Cleaner/Degreaser as needed (see below)
3. Apply solution and let stand for 1 to 5 minutes
4. Scrub surface with brush to loosen and agitate grime
5. Rinse thoroughly with potable water

Uses	Green-Clean	Water
Normal Cleaning	1 Part	5 to 10 Parts
Heavy-Duty Cleaning	1 Part	1 to 5 Parts
Extra Heavy-Duty Cleaning	Use Full-Strength	No Water

RE: JAX GREEN-CLEAN CLEANER/DEGREASER
Category Code: A1
NSF Registration No. 139440

Dear Ms. Patty Riek:

NSF has processed the application for Registration of **JAX GREEN-CLEAN CLEANER/DEGREASER** to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2007), which are available at www.nsfwhitebook.org. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

This product is acceptable for use as a general cleaner (A1) on all surfaces in and around food processing areas, where its use is not intended for direct food contact. Use of this product in food processing or handling facilities requires that all food products and packaging materials be removed or protected prior to product use. A potable water rinse of clean surfaces is required after use of this product. When used according to manufacturer's instructions, the cleaner shall neither exhibit a noticeable odor nor leave a visible residue.

NSF Registration of this product is current when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (www.nsfwhitebook.org). The NSF Registration Mark can be downloaded by clicking the "Download Registration Mark" link on the NSF website (www.nsfwhitebook.org).

NSF Listing of all registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF web site, at www.nsfwhitebook.org. Changes in formulation or label, without the prior written consent of NSF, will void registration, and will supersede the on-line listing.

Sincerely,

Jennifer De France
NSF Nonfood Compounds Registration Program
