

Lube-Shuttle Electric Grease Gun Kit 14.4-LS Li-Ion

Lube-Shuttle® Battery Operated Grease Gun 14.4-LS Ni-Cd

Robust Electric 14.4V Battery Operated Grease Gun for Lube-Shuttle® - System-Cartridges.

Simply remove the cartridge closure, insert into the zinc plated steel body, screw in and you are ready to go!

A powerful DC motor drive, with planetary gearbox and reciprocating piston gives up to 400 bar of grease pressure. Maximum pressure is limited by an inbuilt relief valve.

Delivered with:

Battery Operated Grease Gun, 14.4V Ni-Cd battery, 1500 mAh, Delivery: 100cc per min. approx., electronically controlled fast charger with overload protection (2 hour charge time), High Pressure Rubber Hose 750 mm (burst pressure 1,650 bar) with 4 jaw Hydraulic Coupler R1/8" in Plastic Carry Case with space for Spare Battery and Cartridge.
